

Peninsula Regional Transportation Planning Organization

The Peninsula Region's Transportation Priorities

The Peninsula Regional Transportation Planning Organization (Peninsula RTPO) encourages the State Legislature to fund transportation projects, which promote Regional Transportation System Efficiency. The Peninsula RTPO adopted five goals to promote Regional Transportation System Efficiency.

They include:

- **Preservation/Sustainability** - Fund projects to maintain the Peninsula Region's existing transportation system.
- **Safety** - Fund projects, which reduce accidents such as passing and climbing lanes.
- **Economic Development/Freight Mobility** - Fund projects and sub regional studies which promote greater freight mobility on major regional corridors.
- **Multimodal** - Fund projects which encourage greater regional transportation linkages such as transit, bike/pedestrian, etc.
- **Mobility/Reducing Congestion** - Fund projects and studies which reduce bottlenecks and chokepoints to reduce congestion along the Peninsula Region's major corridors.
